

3. Removed Substances

Solids, sludge's, filter backwash, or other pollutants removed in the course of treatment or control of wastewaters must be disposed of in accordance with section 405 of the Clean Water Act and Subtitles C and D of the Resource Conservation Recovery Act.

C. MONITORING AND RECORDS

1. Representative Sampling and Measurements

Samples and measurements taken as required herein must be representative of the volume and nature of the monitored discharge. All samples must be taken at the monitoring points specified in this permit and unless otherwise specified, before the effluent joins or is diluted by any other waste stream, body of water, or substance. All equipment used for sampling and analysis must be routinely calibrated, inspected, and maintained to ensure accuracy. Monitoring points must not be changed without notification and approval of the District.

2. Additional Monitoring by the Permittee

If the permittee monitors any pollutant more frequently than required by the District, using the procedures prescribed in Title 40 CFR 136, the results of this monitoring must be submitted to the District within thirty (30) days.

3. Inspection and Sampling

Per Article 13.13.5.06 the Ordinance, The IU shall allow the District or its representatives, upon presentation of credentials of identification, to enter upon the premises of the IU at all reasonable hours for the purposes of inspection, sampling, or records examination. The IU shall allow the District to inspect and copy any and all records pertaining to pretreatment. The District shall have the right to set up on the IU's property such devices as are necessary to conduct sampling inspection, compliance monitoring, and/or metering operations.

4. Records Retention

Per Article 13.13.8.01 all Dischargers subject to the reporting requirements of this ordinance shall retain, and make available for inspection and copying, all records of information obtained pursuant to any monitoring activities required by this ordinance, any additional records of information obtained pursuant to monitoring activities undertaken by the IU independent of such requirements, and documentation associated with Best Management Practices. Records shall include the date, exact place, method, and time of sampling, and the name of the person(s) taking the samples; the dates analyses were performed; who performed the analyses; the analytical techniques or methods used; and the results of such analyses. These records shall remain available for a period of at least three (3) years. This period shall be automatically extended for the duration of any litigation concerning the IU or the District, or where the IU has been specifically notified of a longer retention period by the District

5. Signatory Requirements

All applications, reports, correspondence, or any information submitted to the District must be signed and dated by an authorized representative of the permittee.
